ENTERPRISE AI & INTELLIGENT AUTOMATION LEADER

PROFESSIONAL SUMMARY

Technology leader with 10+ years of experience delivering enterprise-scale AI, automation, and regulatory compliance solutions for tier-1 global financial institutions and Fortune 500 organizations. Proven track record implementing generative AI systems, building intelligent automation platforms, and delivering measurable improvements in compliance, operational efficiency, and enterprise scalability.

CORE COMPETENCIES

Enterprise AI Strategy | Generative AI & LLM Engineering | Intelligent Automation & RPA | Regulatory Technology & Compliance | Technology Transformation | Automation Architecture | Risk Systems | Solution Architecture | Cross-Functional Leadership

PROFESSIONAL EXPERIENCE

ACCENTURE — Management Consulting Principal | Tampa, FL | 2022 – 2025

Founded Legal Technology Center of Excellence, training 200+ practitioners and scaling enterprise automation capabilities.

Developed AI-driven Legal Front Door platform generating \$1M+ enterprise pipeline within first year.

Led GenAI regulatory mapping implementation using Frontier LLMs, improving regulatory control coverage and remediation efficiency.

Directed global teams of up to 20+ engineers and analysts delivering enterprise automation and AI platforms.

Automated legal workflows reducing processing time by 40%+ and generating multi-million-dollar operational savings.

Designed privacy lifecycle and compliance automation platforms improving regulatory governance and visibility.

Established enterprise automation architecture integrating AI, RPA, and workflow systems.

ACCENTURE — Technology Consulting Manager | Tampa, FL | 2014 – 2022

Delivered intelligent automation solutions across tier-1 global financial institutions.

Designed regulatory contract remediation platform delivering efficiency gains equivalent to 2+ FTE.

Conducted enterprise automation assessment across 500 applications delivering strategic automation roadmap.

Developed Blue Prism automation solutions generating operational savings exceeding 1.7 FTE.

Built enterprise credit risk data warehouse improving regulatory reporting and risk analytics.

Delivered enterprise KYC compliance technology solutions enabling regulatory remediation.

CERTIFICATIONS

LLM Engineering & Deployment Certification — Ready Tensor (In Progress, Expected 2026)

Building LLM training, fine-tuning, and deployment pipelines using Hugging Face and PyTorch.

Implementing LoRA, QLoRA, and parameter-efficient fine-tuning strategies.

Designing regulatory datasets and benchmarking frameworks.

Agentic AI Certification — Ready Tensor (2025)

Designed and deployed RAG systems and multi-agent architectures.

Built production-ready AI pipelines with monitoring and orchestration.

EDUCATION

Master of Science, Computer Information Systems — Boston University

Bachelor of Science, Computer Engineering — Universidad del Turabo

TECHNICAL SKILLS

Python, PyTorch, Hugging Face Transformers, PEFT, Accelerate, TRL, Axolotl, Weights & Biases, NumPy, pandas, LangChain, LangGraph, LangSmith, FastAPI, Databricks, Blue Prism, UiPath, Automation Anywhere, Appian
